DETAILED ACTION

The notice of allowance and examiner's amendment stated in paper No. 7 has been withdrawn.

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1-2 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 1, line 9, "items is said" is indefinite and confusing term.

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 1-2 are rejected under 35 U.S.C. 103(a) as being unpatentable over Oguri et al. (4,366,005).

Oguri et al. teach a method of steam washing in a dishwasher. The method comprises steam wash (11 minutes) and then main wash (18 minutes). See col. 4, lines 59-61. The pressure and temperature are inherent in the Oguri et al. Process.

Oguri et al. do not teach the time as claimed.

It would have been obvious for one skilled in the art to adjust the time to improve cleaning and to obtain optimum results. This is because increasing the steaming time will enhance and improve the cleaning process.

Response to Arguments

5. Applicant's arguments with respect to claims 1-2 have been considered but are moot in view of the new ground(s) of rejection.
